Self-motivated Team player

Fast learner Client-focused

ABOUT

Passionate software development student at Glory Academy (TVET, Level 3) with hands-on skills in frontend development, UI/UX design, and graphic design. I build clean, functional interfaces and deliver quality freelance work for clients.

FREELANCE SERVICES

Frontend Web Development

Building responsive websites with HTML, CSS, JavaScript, and Vue.js.

UI/UX Design

Wireframes to polished mockups — interfaces that feel intuitive and beautiful.

Graphic Design

Logos, branding, social media assets, and print materials.

Version Control

Clean Git workflows, GitHub collaboration, and organised codebases.

PROJECTS

1

Incognito — Social Media App Design

UI/UX Design · Figma

Designed a full mobile app inspired by Instagram with new privacy-focused features, complete user flows, screen designs, and cohesive visual identity.

Figma UI/UX Mobile Design Prototyping

2

Personal Portfolio — UI Design

UI/UX Design · Figma

Designed a personal portfolio showcasing projects and freelance services, focused on clean layout, visual hierarchy, and memorable brand identity.

Figma UI/UX Branding

3

12-Month Calendar

Graphic Design · Adobe Illustrator

Designed a print-ready 12-month calendar applying strong typographic layout, color consistency, and print design best practices.

Adobe Illustrator Graphic Design Print Design

4

OnTheGo — Ticket Booking Website

Web Development · Team Project

Collaborated with classmates to build a ticket booking platform. Contributed frontend development with Vue.js and managed code via Git and GitHub.

Vue.js Git GitHub
